# CAB

The Commonwealth Agricultural Bureaux (CAB), a co-operative venture established by the Commonwealth, provides the only comprehensive information service for agricultural research workers. This is based on a series of 20 abstract journals which cover the whole range of agricultural science. These journals have a large, world-wide readership.

Other services provided by CAB include:

bibliographies, with or without annotations.

review articles.

publication of technical monographs,  
some of which are standard works.

answering enquiries arising from any aspect of  
agricultural science (charges being made where  
extensive research is required).

photocopies.

provision of identification services  
for entomologists, mycologists  
and helminthologists.

control of animal and plant pests by their  
natural enemies (i.e. biological control  
services)

The work of CAB is largely carried out through a number of Institutes and Bureaux, each dealing with a particular aspect of agricultural science. The abstract journals are produced using computer methods, and the whole data base, from the beginning of 1973 onwards, is in computer-readable form. Experimental tapes covering the field of animal health are already available; tapes for other subject areas will become so progressively.

Enquiries should be sent as follows, to the addresses listed below:-

- (i) any aspect of agricultural science — to the appropriate Institute or Bureau Director.
- (ii) the computerized system, magnetic tapes, or services arising therefrom — to the Systems Manager, Farnham House.
- (iii) CAB publications — to Central Sales Branch, Farnham House.
- (iv) general or administrative matters — to the Secretary, Farnham House.

Liaison Officers in the member countries welcome comments, suggestions or enquiries on CAB services.

## Finance and organization

CAB's finance comes from the income from the sale of its journals and other services and from contributions made by each of the member countries, according to a formula agreed from time to time by those members.

The organization is controlled by an Executive Council composed of nominees of the various Commonwealth Governments, including one for the Dependent Territories. On the following pages is shown a list of the present members of the Executive Council, together with the names of the Liaison Officers, who form the primary link in the member countries.
